The screenshot shows a web interface for managing DNS records. On the left is a dark sidebar menu with the following items: 'My Services' (with a gear icon and a dropdown arrow), 'Renewal Management', 'Managed DNS', 'DNS Records' (highlighted with a yellow bar), 'Domain Registration', 'Email', 'Server Monitoring', 'Backup DNS', 'SSL Certificates', 'Account' (with a person icon and a right arrow), and 'Support Center' (with a speech bubble icon and a right arrow). The main content area has two tabs: 'Create Hostname' (active) and 'Manage DNS Record'. Below the tabs is the 'Hostname Information' section, which includes a 'Hostname' label with an information icon and an empty text input field. The 'Hostname Type' section has three radio button options: 'DNS Hostname (A)' (selected), 'DNS Hostname (Round Robin)', and 'DNS Alias (CNAME)'. The 'IP Address' label with an information icon is followed by a text input field containing the value '172.18.0.1'.
