About This Game

The world has changed. Irrevocably and completely. Green parks have been replaced by grey ruins. Colourful meadows have become toxic swamps. Once vibrant lands are now littered with dust, rubble, concrete, and debris.

Most creatures did not survive the Great Change. The survivors fared rather poorly in the immediate aftermath, becoming prey to all manner of predator. However, a lucky few managed to survive even then, to adapt, to thrive, to evolve. Zombillie was one such creature.

Zombillie lived a comfortable life in his humble cave, hunting for meat, and as he hunted, he grew, and grew, and grew. Everything was going relatively well for Zombillie, except for one problem: Zombillie didn't have enough meat!

Help Zombillie reach the legendary meat farm! A long road lies ahead: 90 complex levels full of puzzles and traps. So stand on your feet - all 100 of them - and just ride!

Features

-
- Almost 100 challenging levels
 - 3 completely different environments
 - Lots of power-ups & gadgets to find
 - Various levels
 - 2 additional types of mini-games
 - Addictive gameplay

idk what i just played but 9/10. Worst game I have evr played. Glad the uninstall button works fine though.. This is the most fun arcade video game I ever played,well I mean mario is obviously the best but I mean this is a very fun game. Very good game. Please update more predators, like crocodiles, snakes and more. and please add a watch. don't play it solo. i purchased this DLC a couple of days ago, and can't seem to get this to work. i'm wondering does anyone know how to get it to work? i love playing this game and customizing the trucks, so i would like to get this dlc to work. i do recommend this game to play, its fun and it's a lot like real trucking, i'm a trucker myself so i speak first hand on how realistic it actually is.. I really like this game. It enters waters that some people don't really like to talk about. (there's a warning at the beginning of the game telling). It goes through trauma, suicide, murder and some depressing moments. I really enjoy the story so far, but I don't need to tell you all about it when I can just show you. (Little bit of some self-promoting my channel if you will). Here is a part of the game if you are interested in playing it for yourself before you buy it.

https://youtu.be/M_jKERpYxqw. The most insensitive game ive ever played.

Having a sex change doesn't simply come down to the fact you want to have boobs or look sexy, alot of people do it because they don't feel comfortable in their own bodies. Its especially hard to actually read on Zeke's storyline when pretty much every 2-10 minutes, he mentions the fact he was forcibly turned into a girl and infact he has a pretty ♥♥♥♥ing a okay point and everyone is like "OMIGOD YOUR HOT.". Jeezee, there is stuff like this all the way through the story and in fact its pretty cringeworthy. Its pretty much gag gift status, right up there with bad rats.

I could seriously see this game hurting the feelings of some people, and its not really in anything else but the writing. The writing is definitely the worst part, i absolutely hated all the Gender Bended characters when they interacted with others, literally all they did was talking about being a girl and how sexy they were. Not everyone is going to be like that if you force them at will, in fact i'd imagine they would be really♥♥♥♥♥♥♥♥off and sue you. The other storylines are just as cringeworthy (and funny) but Zeke's one is absolutely the most ive ever gotten actually angry at a visual novel that i've had to force myself to finish reading through it so a word of caution.

A Few Bug Issues.

Occasionally the UI will have you thinking its your protagonist talking but instead its another character. Spelling mistakes galore, too! It makes you think that these guys haven't even heard of a spell checker, its a magical construct that actually makes sure you haven't ♥♥♥♥♥ed up grammatically!

Ultimately what the hell else can you expect from Gender Bender DNA Twister Extreme. Hell, i accepted it because i figured it would be a bit of a laugh to read and it is so, i guess this game has that.

However, if your in it for the narrative side there are many alternatives. Stuff like Katawa Shoujo and Analogue : A Hate Story tell the story in a much more interesting way. In the end this game will always be ridiculous while with Katawa Shoujo and Hate Story in some parts its some top class writing.

I'd like to take the time to tell you that Katawa Shoujo is Free, and Hate Story is much much less costly.

edit: fixed a few typos.. I cannot get Bonita's Tragic Muse, Wild Bull Run, or Emotional Baggage however this soundtrack is still awesome will try to reinstall.. This DLC is amazing!

It adds a bunch of new ships (and workshop integration, so there are hundreds of extras) and many new game perks. Each ship has it's own "missions" which are basically mini-challenges to attempt while playing the game. You may have to kill X number of scouts, score 4 million points on one song, or beat 3 songs on Insane difficulty. Each time you beat a challenge your ship ranks up and your profile ranks up too. Win challenges to unlock more powerful ships.

Each ship has it's own perks. You can try different ships based on your own play style.

Some ships are very fast with a focused beam, some are larger and fill the screen with bullets, some auto-aim. There is a lot of content here.

This is a great add on and I recommend it to anyone who enjoys Beat Hazard.

I wanted to like this game, but honestly, I can't recommend it. Not only did I not find it that scary (a few parts got me), but the bugs and crashes really ruined my immersion. Two separate times I was instantly grabbed and killed when transitioning to a new part of the house. A couple of serious moments I even found laughable due to really strange graphical design choices. A few patches might make this game a lot scarier, but until then, pass.. Mechs, Lightning guns, Ultra boat, what more does anyone need?. As old school reports used to say: "Jane could do better".

The idea is good but what do we have here. A product called "Dangerous Approaches". You would be forgiven for thinking it was about the landing experience but it is not. Before even getting to try a landing you have to either follow a magenta line for a couple of hours or put on the autopilot and go and have a good dinner until approach time comes. Not that the flights are all bad but sometimes people do not have two hours to spare to practice an approach and with the state of fsx at the moment there is only a 50% chance of lasting that long.

The voice overs have obviously been written to be listened to with engine and ambient noises off. No way to fly a plane.

I think it must also have been developed with Active Sky Next on Jane's computer as she mentions several times the weather and there is none...at least no buffeting and I have my weather slider full right. If Flybe was landing in the Scottish Islands I am sure the pilots could not handle the stillness as they are really used to wind.

Keep trying Jane as this time the bad outnumbers the good points but I am sure you can do better.. If this would be free to play, it would still be overpriced.. Very well told story with excellent atmosphere and decent replayability. Worth your money.. Not in its current state.

This game wants to be so much more than it is.

The Good:

Honestly nothing yet.

The Mediocre:

Most of this game so far...

Balancing,

Dialogues,

Events,

Crafting,

Tavern Management,

World Depth and Inspiration,

Creativity.

The Bad:

The combat,

the combat,

the combat. (this is 99% of the game)

This makes some bad third party NES titles look like they have good combat programming. This is like Cheetahmen bad. If you do play, do not pick the fighter class, you will just die. Do not pick the guns, you will run out of ammo and will not have enough ore to make more, then die. See latter but with mage. Pick the Ranger class with both guns and wands and you may have a chance to not die, but no guarantees.

The platform\programming.

This is a rush title with an amazing premise. It is sad that the developers chose to rush out the product instead of taking the time to produce a quality piece of software that would be solidly enjoyable. I played for a little under an hour and was completely underwhelmed. I wanted the negative reviews to be trolls, but they aren't. This game is plagued with legitimate problems and should be labeled an early access title in its current state of completion. It is in a very rough beta at best.

All the love to the developers, as I hope they can polish a diamond out of what is a particularly soft piece of coal at the moment. I am going to get a refund for now though.

Fear Effect Sedna premiere date!:

The premiere date of Fear Effect Sedna is finally known! The game will be released on 6 March 2018 on PC, PlayStation 4, Xbox One and Nintendo Switch!

In 3 weeks, you'll be able to join the mercenary squad to discover myths from the Inuit people, and fight creatures from the spirit realm.

Visit Fear Effect Sedna and add it to your Wishlist and be up to date with latest news:

http://store.steampowered.com/app/546900/Fear_Effect_Sedna/. **Bedtime Blues is now available!:**

Play as a youngling surviving through the night in the pixelated horror. Your once beloved teddy bear had come to life and became conscious!

https://store.steampowered.com/app/966540/Bedtime_Blues. **Fear Effect Sedna discount:**

Fear Effect Sedna is OUT NOW!

Thank you to all of you for the support. We are really excited to see the game released and give you all the opportunity to finally play it.

The game is now available with a limited time launch discount as well as the option for the Collector's Edition that features the original soundtrack and digital art book.

If anyone is getting a bit stuck on a puzzle and needs some help you can find a walkthrough on feareffect.com

SUSHEE.

http://store.steampowered.com/app/546900/Fear_Effect_Sedna/. **2nd patch:**

Changes:

- shooting levels bugs fixed
- some bugs in world 3 fixed. **Stream and Giveaway on Twitch!:**

Next up - two premieres this week on Steam! Join BluNectarine on our Official Twitch Stream and watch her struggle in 'Bedtime Blues' and 'The Childs Sight'! We will be giving away game keys so don't miss it!

Tune in on Thursday, March 28th at 12:00pm CET
